Individual Contributions:

Please provide 1-2 sentences to describe the contributions of each team member during the past week.

<Ousman>:

Created IExpression interface and finished implementing Sum and Average Range expression features

<Dylan>:

Helped setup UI infrastructure and create grid and cells.

<Maddie>:

Helped Ousman with tests.

<Hector>:

Refactored UI and implemented Grid class. Refactored grid component to add/remove columns and rows.

Sprint Retrospective:

Please answer the below questions in 1-2 sentences (use more of something really went wrong).

What went well in the previous sprint?

       Everybody participated and collaborated in planning next steps for the project and working towards completing our tasks. Everyone worked on what they were assigned.

What obstacles were encountered in the previous sprint?

       No issues and no blockers so far.

What can we improve in the next sprint?

       Everyone attended the meeting and collaborated. We need to make more progress on the project.

Sprint Planning:

Plan for next sprint:
